

The Focal Point HIGH ABOVE IT ALL

BY MARIAN COWHIG

Hit the hills no matter the season at Liberty Mountain Snowflex Centre. Beginners and experts alike can tackle moguls, the quarter-pipe, or the safer bunny trail on a synthetic, year-round surface that has all the skiing properties of snow. Operated by Liberty University, Snowflex is open to the public, and it's a deal at less than \$20 per person for equipment rental (skis or inner tubes) and an hour of slope time.
