# The Energy of Art

Camellia Art Gallery specializes in contemporary art...and inspiration.

BY TARA TITCOMBE

**A**vibrant energy radiates from Camellia Art Gallery, welcoming visitors of all aesthetic tastes.

For more than 25 years, this “Manhattan cozy” gallery has been the premier source for contemporary and abstract

artwork on Hilton Head Island and the South Carolina island resort region.

Camellia Art prides itself on its diversified, sophisticated collection. From oil paintings to abstract expressions to bronze sculpture, the works here create a harmonious energy. The inspiring and eclectic works include creations from regional artists as well as those from the West Coast and Northeast. Browse vibrant beach landscapes by Candace Lovely and soothing impressionistic landscapes by Lynn Parrot. Ponder Vicki Long’s impressionistic figuratives and Ted Jordan’s storytelling illustrations. Each piece speaks for itself, and Camellia Art is happy to present their stories.

Specializing in pieces for individuals, private collectors, and corporate entities, Camellia Art’s collection caught the eye of HGTV, which featured selections from the gallery in segments of *HGTV Dream House* and *HGTV Green House*, as well as *Coastal Living* magazine, which used Camellia pieces for a holiday issue.

Though Camellia Art showcases a variety of art to a wide range of audiences, there are a few constants: the attention to detail, the quality of every project, and the warm energy that envelops the gallery.
